

**Shanghai Institute of Technology**  
**—A CRADLE OF ENGINEERS**

**International Cooperation Office  
Shanghai Institute of Technology**

**上海应用技术大学**  
SHANGHAI INSTITUTE OF TECHNOLOGY

is a full-time public university with 70 years history. SIT owns two campuses – Xuhui downtown campus is located in city center of Shanghai, adjacent to Caohejing Hi-tech Park. Fengxian main campus is located in Fengxian Bay area. The two campuses cover an area of 1106870.2 square meters.

SIT is one of the top 100 demonstration universities of Applied Sciences distinguished by its Perfume and Aroma Technology program in China. SIT is also one of the pilot universities included in the Chinese Ministry of Education (MOE) “Excellence Engineer Education Program” and one of the 15 pilot universities to deepen innovation, originality and entrepreneurship education (IOE education) funded by Shanghai Municipal government. As one member of UAS alliance under the guidance of Chinese Ministry of Education, after more than 60 years of twists and turns, SIT has developed a mature application-oriented education system including **53 undergraduate programs** with a focus on engineering and natural science areas, **27 thesis-based master’s degree programs** and **20 discipline areas of professional master’s degree programs** covering more than **8 major discipline complexes** including engineering, science, management, economics, humanities, laws, agriculture and art. We are authorized to offer **doctorate degree in Chemical Engineering and Technology** since 2021.

The total enrollment is over 20000 students. SIT has more than 1700 full-time teachers and high-quality research faculty. SIT has increased the percentage of industry experts and elites with overseas education background so as to cultivate talents with strong practical ability and international way of thinking.

SIT owns 11 National First-class Undergraduate Program Construction Sites and 14 Provincial First-class Undergraduate Program Construction Sites. In 2020, SIT adds 4 newly approved Undergraduate Programs by the Ministry of Education including Artificial Intelligence, Robotics

Engineering, Big Data Management and Application and Intelligent Manufacturing Engineering. Among programs we offer, Perfume and Aroma Technology, Chemical Engineering and Technology, Electrical Engineering and Automation, Civil Engineering, Landscape Architecture, Mechanical Design Manufacturing and Automation, Food Science and Engineering, Material Science and Engineering, Pharmaceutical Engineering, Software Engineering, Information Management and Information System are National Pilot Programs for “Applied Undergraduate Program”.

SIT has established extensive cooperation and exchange relationship in various forms, for instance, seeking international authentication for Engineering programs, developing Joint Double-degree Program, carrying out Joint Education, and conducting Student/Staff Exchange Programs with **150 overseas universities and research institutions in 31 countries and regions** all over the world.

To respond to the Belt and Road initiative, we cooperated with Souphanouvong University (SU) to cultivate the local railway technical talents in Laos. The **SIT-SU Cooperative Program in Railway Engineering** has enrolled **nearly 40 Laos students (22 undergraduates and 15 graduates)**. The first two batches of about 20 students have graduated from this program, who have become the engineers serving the construction of China-Laos Railway. Based on this successful cooperation, we established **the Belt and Road Lancang-Mekong Railway Connectivity Center** in 2021, which is funded by Shanghai Science and Technology Commission.

SIT has become an ideal choice for international students from all over the world to study applied science in Shanghai.

**Welcome to SIT !**

	<b>机械电子工程</b> Mechatronic Engineering

### 博士研究生学费（33,000 元/年）

Tuition fee for Master's Programs (33,000 Yuan/year)

学院 Schools	专业名称及研究方向 Programs and Directions
<b>香料香精化妆品学部</b> School of Perfume and Aroma Technology	<b>化学工程与技术 Chemical Engineering and Technology</b> 01 香料化学与香料产品工程 Aroma Chemistry and Product Engineering
<b>化学与环境工程学院</b> School of Chemical and Environmental Engineering	<b>化学工程与技术 Chemical Engineering and Technology</b> 01 药物化学工艺 Chemical Pharmaceutical Technology 02 能源与环境化学工程 Energy and Environmental Engineering
<b>材料科学与工程学院</b> School of Materials Science and Engineering	<b>化学工程与技术 Chemical Engineering and Technology</b> 01 材料化学工程 Material Chemical Engineering

## II. HOW TO APPLY

1. Please visit our application website: [apply.internationalsit.cn](http://apply.internationalsit.cn);
2. or visit [http://edu.sh.gov.cn/study\\_cn\\_scholarship/index.html](http://edu.sh.gov.cn/study_cn_scholarship/index.html) (Shanghai Scholarship Application Site);
3. Contact e-mail: [chenrosalind@outlook.com](mailto:chenrosalind@outlook.com)

### Deadline

Academic Programs: 30 June

## III. SCHOLARSHIP

### 1. Types

	Tuition	Dorm.	Living Subsidy (Yuan)	Requirements
<b>A</b> (not for freshmen)	waiver	waiver	Postgraduates: 3000/month  Undergraduates: 2500/month	1.Undergraduates or postgraduates (Freshmen not included) 2.exceptional academic achievements 3.HSK5 (270) and above
<b>B</b>	waiver	/	/	1.Undergraduates or postgraduates 2.excellent academic achievements 3.HSK4 (180) or HSK5 (180) and above

### 2. Requirements

- (1) **Chinese Language:** For undergraduates, HSK 4 (180 points) above ; For postgraduates, HSK 5 (180 points) above, or the undergraduate program was taught in Chinese.

(2) **Age:** Applicants for undergraduate programs shall be under the age of 25, while postgraduate applicants shall be under the age of 35 and 40 for master's and doctorate programs respectively.

## IV. DORMITORY FEES

<b>Xuhui Campus (Downtown)</b>	¥ 6000/year (double room, air-con, bath room, internet access, public kitchen)
<b>Fengxian Campus (Suburb)</b>	¥ 4800/year (double room, air-con, bath room, internet access, public kitchen)
